

Powerful solutions for your intelligent business

Information is key to the success of your business. Yet information is useless if you can't extract it, analyze it and manipulate it to meet your needs. ConceptSolutions delivers proven solutions to provide information that will reduce costs and increase profits to make your business more successful.

ConceptSolutions knows your business is different and your needs are different. Our approach is to listen to you and build customized innovative and integrated solutions so you can achieve your goals. We can develop a new product, use existing market-ready products (or a combination of both on a new platform), or integrate into your existing platform.

ConceptSolutions provides the resources to meet your demands, whether it's developing customized solutions for commercial and government markets or delivering professionals to your location for onsite expertise. Leave it up to us to give you the power that will help you save money, profile and target your best prospects, get accurate and timely reports, and make critical decisions. While ConceptSolutions remains flexible enough to deliver custom systems and solutions, we offer proven successes in:

- **Data Integration**
- **Marketing Intelligence**
- **Data Mining**
- **Application Development**
- **Business Process Automation**
- **Performance Measurement**
- **IT Integration**
- **LAN/WAN Network Management and Helpdesk Support**
- **Data Warehousing**
- **Oracle Development**
- **Oracle Architecture**

**No matter how you want your information, we have the right solutions.
