

## Powerful solutions for your intelligent business

ConceptSolutions, an 8(a) firm, delivers to our government partners the personalized service of a small company and the knowledge and expertise of a large organization. Our scalable and secure solutions are designed to meet your OMB-mandated Enterprise Architecture and eGovernment requirements. Through our alliances and contract vehicles such as: GSA Schedule 70, GSA 8(a) STARS, and FAA BITS II, we can offer secured solutions that meet NSA and DoD standards. ConceptSolutions strives to develop leading-edge solutions, tailored to your requirements, to save you money and meet your goals.

### Data Integration and Data Warehousing

Consistent access to integrated data across the enterprise gives decision-makers the ability to obtain critical information, eliminate data discrepancies, and get centralized reports and updates. Our data warehousing solutions help you extract, integrate, and store information, beginning with consolidating your most critical data for immediate results..

### LAN/WAN Network Management and Helpdesk Support

ConceptSolutions provides end-to-end LAN/WAN network management ensuring high availability for critical systems. As a member of the Helpdesk Institute, we take pride in providing top-notch customer service and trouble resolutions. Our dedication to meeting Service Level Agreements (SLA) and our emphasis on security has won high client and industry praise

### Performance Measurement

ConceptSolutions offers unique expertise in helping organizations develop, collect and report metrics for measuring business processes and successes, and effectiveness of their programs. Our professionals are trained in quality control and statistical methodologies necessary for developing performance measurement programs.

### Business Process Automation

Structuring your systems to automatically carry out routine business functions frees you to concentrate on other business tasks. As a strong proponent of efficiency, we have assisted many clients in automating their business processes by leveraging the latest technology components to cut costs, reduce risks, and improve performance.

### IT Integration

ConceptSolutions is deeply involved with IT integration projects, providing experience in ERP implementation including Oracle, PeopleSoft, asset management and tracking, and customized development. Our project managers are trained in the latest tools and project management methodologies, and we are committed to adhering to CMMI and ISO 9001:2000 quality standards..

**No matter how you want your information, we have the right solutions.**  
**ConceptSolutions – Intelligent Business. Powerful Solutions.**
