

Powerful solutions for your intelligent business

Information technology is constantly shifting and moving forward. In today's market, it is a challenge to keep up with the wide array of technology offerings and then find the right experts who can develop and maintain your information technology. ConceptSolutions has the ability to provide you with IT experts who are knowledgeable in application development and infrastructure support to handle your IT demands.

There is no need to invest time and money to hire staff to work on a project and become saddled with too much manpower and costs between projects. ConceptSolutions can provide you with just-in-time consultants for your IT project requirements. Our consultants are full-time employees, so you are always guaranteed experienced IT professionals who meet our rigorous quality assurance qualifications, ensuring efficient and superior service. Our staffing services are set up to meet your staffing needs including short-term, temp-to-perm, or permanent placement of consultants.

ConceptSolutions' core strengths are client server and web applications with full life-cycle capabilities and our staff has experience in various industries: Telecommunications, biotech/pharmaceutical, finance, federal and more. We specialize in a wide range of technologies, including:

- Oracle
- Peoplesoft
- ASP.net
- Business Objects
