

RESTON, Va. – April 21, 2020

Concept Solutions, LLC (CS) is proud to announce it has been selected by the U.S. General Services Administration (GSA) for inclusion in “Pool 1” of the One Acquisition Solution for Integrated Services (OASIS) governmentwide acquisition contract (GWAC), a Best-in-Class (BIC) vehicle for providing IT-related management, scientific and technical services to Federal agencies spanning the U.S. Government.

Following the mid-February award, CS has gained membership in one of seven separate multiple award, indefinite delivery, indefinite quantity (MA-IDIQ) task order contracts referred to as OASIS “pools”.

As a member of OASIS Pool 1, CS can bid on task orders for professional management, scientific and technical services including: engineering, mapping, testing, management/business consulting, human resources, marketing/public relations, logistics consulting and environmental.

“Concept Solutions is excited to be one of the OASIS vendors and we look forward to submitting our first task order bid.”

Phong Mai, CS President and CEO

OASIS is open to all Federal customers, including members of the Department of Defense and the National Security Community. As with other GWACs, it allows a streamlined acquisition method with a pool of vetted vendors with predetermined rates beneficial to the customer. In other words, OASIS provides Federal agencies with an advantage when purchasing IT products and services—they can save time and money by submitting their task orders to a list of pre-approved companies that have already passed one level of the acquisition process.

Selection for OASIS therefore grants an enviable advantage to its members, one which CS is honored to receive. “Concept Solutions is excited to be one of the OASIS vendors and we look forward to submitting our first task order bid,” said CS President and CEO Phong Mai.
