

RESTON, Va. – January 14, 2021

Concept Solutions, LLC has been awarded a \$950,000,000 ceiling indefinite-delivery/indefinite-quantity contract for the maturation, demonstration and proliferation of capability across platforms and domains, leveraging open systems design, modern software and algorithm development in order to enable Joint All Domain Command and Control (JADC2). This contract is part of a multiple award multi-level security effort to provide development and operation of systems as a unified force across all domains (air, land, sea, space, cyber, and electromagnetic spectrum) in an open architecture family of systems that enables capabilities via multiple integrated platforms.

“Concept Solutions is excited to win a contract to support the Advanced Battle Management System (ABMS). This expands our DevSecOps CI/CD services and fits into our U.S. Air Force portfolio along with supporting the Kessel Run software factory.”

Phong Mai, CS President and CEO

CS President and CEO Phong Mai said, “Concept Solutions is excited to win a contract to support the Advanced Battle Management System (ABMS). This expands our DevSecOps CI/CD services and fits into our U.S. Air Force portfolio along with supporting the Kessel Run software factory.”
